JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

*Report from Santiago—Inspection of vessels.*

Acting Assistant Surgeon Wilson reports, April 6:

Week ended April 3. Bills of health issued to 4 vessels bound for the United States. No vessel was fumigated. No quarantinable disease has been reported.

## ECUADOR.

*Report from Guayaquil—Inspection and fumigation of vessels—Plague and yellow fever.*

Passed Assistant Surgeon Wightman reports, March 29, through Passed Assistant Surgeon Lloyd:

During the week ended March 20, 2 steamships were fumigated and granted bills of health.

For the same week quarantinable diseases were reported in Guayaquil as follows: Yellow fever, 26 new cases, with 10 deaths; plague, 5 new cases, with 3 deaths.

## FRANCE.

*Precautions against importation of cholera.*

The following is received from Assistant Surgeon Wollenberg, at Naples, under date of March 29:

The president of the council of ministers has recommended the continuance of all preventive measures on the frontier against the introduction of cholera from Russia, i. e., inspection and disinfection, the protection from contamination of all drinking-water supplies in France, ordering all physicians and landlords to report all cases suspicious of cholera, and prohibiting the introduction from Russia of all articles liable to carry the infection. (See Public Health Reports October 2, 1908, p. 1427.)

## HONDURAS.

*Report from Ceiba, fruit port—Stegomyia calopus and Anopheles present.*

Acting Assistant Surgeon Jumel reports:

Week ended April 7. Present officially estimated population, 6,800. General sanitary condition of this port and the surrounding country during the week, good.

*Stegomyia calopus* present; *Anopheles* abundant.
